

# A Note on This Library

*A placeholder PDF — replace me with something worth keeping.*

This file exists only to prove that static PDF hosting works.

Anything you drop into the static/pdfs/ folder of this site is served as-is at /pdfs/<filename>.pdf. No database, no upload form, no fees. Books, pamphlets, scans, your own essays exported to PDF — all of it lives right next to the site and will keep working as long as the site does.

Delete this file whenever you like.
